

Summary

- Student with a record of academic and extracurricular success.
- Extensive computer experience.

Experience

WEBSITE BUILDING – 2020-PRESENT

I built my own portfolio website using a variety of coding languages to present myself online. I used PHP, HTML, JS and CSS. I have experience with both building and debugging errors found in all four coding languages. I did software design and development for the portfolio site to make sure user experience was excellent.

COMPUTER BUILDING/UPGRADING – MAY 21 2020

I have experience with building new desktop computers. I built my own gaming computer from various components found on retail sites such as [amazon.com](https://www.amazon.com) and [newegg.com](https://www.newegg.com). I routinely maintain and upgrade the computer every 6 months. I have experience in building and upgrading desktop computers.

CLUB/GROUP REFERENCE EDITOR – AUGUST 2019-JUNE 2020

Editor for my school's yearbook in the 2019-2020 school year. My job was the club/group reference editor, which entailed managing group photos and creating "spreads" (set of 2 pages). The spreads included the club's name, member names, and the photograph. I coordinated photo dates for 59 different clubs. I created the spreads with Adobe InDesign and organized the images with Adobe Bridge.

STUDENT RESEARCHER – SEPTEMBER 2021-FEBRUARY 2022

I completed more than 10 hours of lab work in further exploration of bacteriophages. I worked alongside professionals and learned how to create agar, sterilization procedures, and how to make bacteria grow in an incubator. I accomplished a lot of the sample gathering during the Christmas break, coordinating with my lab mates to check on the growth.

Clubs

OREGON STATE HACKATHON CLUB

I am an active member of the Hackathon Club where each term there is a hackathon where you can demonstrate your coding and development skills.

OUT IN STEM CLUB

I am an active member of the Out in Stem club, which is a club derived from LGBTQ+ students in STEM. Many activities and events happen throughout the year to support the LGBTQ+ community and have our voices heard.

VOLUNTEER WITH THE RED CROSS CLUB AT WEST LINN HIGH SCHOOL

During junior year, I volunteered with the Red Cross Club with managing/preparing for blood drives in our local community. At our first drive, I donated blood for the first time! I completed 20 hours of volunteer work, starting in September of 2021 and ending in June of 2022.

Skills

COMPUTER SKILLS

I have worked with spreadsheets and reading/managing email. I have a typing speed of 60 words per minute. I am familiar with entry-level coding projects in PHP, Python, HTML, Java, and CSS. I have familiarity with debugging error messages on websites. I have a vast amount of knowledge surrounding both Mac and Windows machines. I have a lot of experience with technical support and answering questions about technology amongst my friends, family, and teachers.

LEADERSHIP SKILLS

Trying to help fellow classmates understand the course material, I have tutored various friends in school. I have experience dealing with multiple deadlines and in building a weekly academic schedule to finish my coursework in a timely manner. I have experience with many group assignments, where I lead the group to a thoroughly completed project done in a timely manner. In these situations I have made sure all participants have a task to do and check up on them to ensure they have fulfilled to a high quality final product.
